

Flower Language

Flowers have miraculous colours,
They send us love with their perfume.
A different language have flowers.

Even if I learn all the languages in the world,
It won't be possible for me to tell about love,
As well as fragrant flowers.

I smell love watching their colours,
And want to say, "I love you"
In the flower-language to my lover.

- **Fide Erken**
Bursa, Turkey.

I love you!
